**2. EXCESS CLAIM FEES**

| Fee Description  | Fee (\$)            | Small Entity Fee (\$) |
|--|---------------------|-----------------------|
| Each claim over 20 (including Reissues)                                | 50                  | 25                    |
| Each independent claim over 3 (including Reissues)                     | 200                 | 100                   |
| Multiple dependent claims  | 360                 | 180                   |
| <b>Total Claims</b>  | <b>Extra Claims</b> | <b>Fee (\$)</b>       |
| - 20 or HP = _____ x _____ = _____                                     |                     |                       |
| HP = highest number of total claims paid for, if greater than 20.      |                     |                       |
| <b>Indep. Claims</b>   | <b>Extra Claims</b> | <b>Fee (\$)</b>       |
| - 3 or HP = _____ x _____ = _____                                      |                     |                       |
| HP = highest number of independent claims paid for, if greater than 3. |                     |                       |

**3. APPLICATION SIZE FEE**

If the specification and drawings exceed 100 sheets of paper (excluding electronically filed sequence or computer listings under 37 CFR 1.52(e)), the application size fee due is \$250 (\$125 for small entity) for each additional 50 sheets or fraction thereof. See 35 U.S.C. 41(a)(1)(G) and 37 CFR 1.16(s).

| Total Sheets  | Extra Sheets | Number of each additional 50 or fraction thereof | Fee (\$) | Fee Paid (\$) |
|---------------|--------------|--|----------|---------------|
| - 100 = _____ | / 50 = _____ | (round up to a whole number) x _____             |          |               |

**4. OTHER FEE(S)**

Non-English Specification, \$130 fee (no small entity discount)

Other (e.g., late filing surcharge): Petition to Revive under 37 CFR 1.137(a)

Fees Paid (\$)

\$500.00

(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

In re the Application of:

Janani Janakiraman, docket number AUS920010653US1, serial number 09/944,518, filed 08/31/2001

**Statement of the Facts Prior to Holding of Abandonment**

(1) Applicant's agent, Robert H. Frantz, received an Office Action dated 12/15/2004 setting a 1 month Shortened Statutory Period (SSP) for reply, making the formal reply due on 1/15/2005 without available extensions of time to reply.

(2) A reply the Office Action was filed by facsimile on January 14, 2005, within the SSP for reply. A copy of the reply as faxed (now stamped in upper right hand corner as "COPY") accompanied by a Certificate of Transmission under 37 CFR §1.8, and with two forms of machine generated confirmation (our sending machine's confirmation and the USPTO's RightFax confirmation reply) are attached herewith. The confirmations indicate that all 11 pages of the reply were successfully received at 703-872-9306, which was the appropriate centralized fax number for receiving responses at the time the reply was transmitted.

(3) On July 27, 2005, applicant's agent received a Notice of Abandonment in which it was noted that applicant had failed to timely reply to the Office Action mailed on December 15, 2005.

(4) On August 15, 2005, applicant's agent submitted by Express Mail a request for reconsideration from the holding of abandonment under MPEP 711.03. Following deposit of the request in the mail, applicant's agent contacted Examiner Garg by telephone to let him know that the request was in the mail, at which time Examiner Garg stated that he would not reconsider the abandonment holding without a formal petition to revive.

(5) Applicant hereby requests revival of the application, and entry of the amendment, as the attached documents (timely filed reply with certificate of transmission and confirmation of receipt pages) clearly indicate that applicant made a bona fide attempt to reply to the Office Action within the allowed period for reply.

(6) If it is determined that the holding of abandonment was not the fault of the applicant, applicant requests refund of the petition fee included herewith.

*(Please attach additional sheets if additional space is needed.)*

**Section I:**  
**AMENDMENT UNDER 37 CFR §1.121 to the**  
**CLAIMS**

Claims 1 - 21 (withdrawn).

Claim 22 (original):

A method for preserving battery life in a portable networked client device by restricting the types of web objects received by the client device based upon battery conditions, said method comprising the steps of:

- determining the condition of a battery in a networked client device;
- transmitting said battery condition from said networked client device to a web server;
- selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low, otherwise selecting all web objects in a web page for transmission by said web server to said client device; and
- transmitting said selected web objects to said networked client device.

Claim 23 (original):

The method as set forth in Claim 22 wherein said step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises restricting from transmission advertisement web objects.

Claim 24 (original):

The method as set forth in Claim 22 wherein said step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises restricting from transmission animated graphical web objects.

Serial No. 09/994,518Janani JanakiramanPage 3 of 10

COPY

**Claim 25 (original):**

The method as set forth in Claim 22 wherein said step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises restricting from transmission video segment and clip web objects.

**Claim 26 (original):**

The method as set forth in Claim 22 wherein said step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises restricting from transmission sound and audio web objects.

**Claim 27 (original):**

The method as set forth in Claim 22 wherein said step of selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises restricting from transmission multicolor web objects.

COPY

**Claim 28 (new):**

A computer readable medium encoded with software for preserving battery life in a portable networked client device by restricting the types of web objects received by the client device based upon battery conditions, said software performing the steps of:

determining the condition of a battery in a networked client device;

transmitting said battery condition from said networked client device to a web server;

selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low, otherwise selecting all web objects in a web page for transmission by said web server to said client device; and

transmitting said selected web objects to said networked client device.

**Claim 29 (new):**

The computer readable medium as set forth in Claim 28 wherein said software for selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises software for restricting from transmission advertisement web objects.

**Claim 30 (new):**

The computer readable medium as set forth in Claim 28 wherein said software for selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises software for restricting from transmission animated graphical web objects.

**Claim 31 (new):**

The computer readable medium as set forth in Claim 28 wherein said software for selecting only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low comprises software for restricting from transmission video segment and clip web objects.

**Claim 34 (new):**

A system for preserving battery life in a portable networked client device by restricting the types of web objects received by the client device based upon battery conditions, said system comprising:

a battery monitor adapted to determine the condition of a battery in a networked client device;

a condition transmitter configured to transmit said battery condition from said networked client device to a web server;

an object selector adapted to select only essential web objects in a web page for transmission by said web server to said client device if said battery condition is low, otherwise selecting all web objects in a web page for transmission by said web server to said client device; and

an object transmitter configured to transmit said selected web objects to said networked client device.

**Claim 35 (new):**

The system as set forth in Claim 34 wherein said object selector is further adapted to restrict web objects from transmission to said client device.

**Claim 36 (new):**

The system as set forth in Claim 34 wherein said object selector is further adapted to restrict animated graphical web objects from transmission to said client device.

**Claim 37 (new):**

The system as set forth in Claim 34 wherein said object selector is further adapted to restrict video segment and clip web objects from transmission to said client device.

**Claim 38 (new):**

The system as set forth in Claim 34 wherein said object selector is further adapted to restrict sound and audio web objects from transmission to said client device.

**Claim 39 (new):**

The system as set forth in Claim 34 wherein said object selector is further adapted to restrict multicolor web objects from transmission to said client device.

**Section IV:**  
**AMENDMENT UNDER 37 CFR §1.121**  
**REMARKS**

**Response to Restriction Requirement**

In the Office Action, a restriction requirement was made, identifying Group I as claims 1 - 12, Group II as claims 13 - 21, and Group III a claims 22 - 27. Applicant hereby elects prosecution of Group III, Claims 22 - 27, for prosecution in the present patent application.

**Amendment**

The preliminary amendment made herein provides claims drawn to a computer readable medium and a system for the same invention as claimed in Claims 22 - 27. The resulting number of claims (original claims less withdrawn claims plus new claims) is equal to or less than the number of originally filed claims, and thus no additional fee should be required.
